Patent No. 6858710

GENERAL INFORMATION:
APPLICANT: Bangur, Chaitanya S.
APPLICANT: Fanger, Gary W.
APPLICANT: Hill, Paul
TITLE OF INVENTION: COMPOSITIONS AND METHODS FOR THE THEF
TITLE OF INVENTION: AND DIAGNOSIS OF COVARIAN CANCER
FILE REFERENCE: 210121.462C9
CURRENT FILING DATE: 2002-07-17

CURRENT FILING DATE: 2002-07-17

NUMBER OF SEQ ID NOS: 624

SOFTWARE: FastERQ for Windows Version 4.0
                                                                                                                                                                                                                                                                                                                                                                                                               LEMTRNGTCLONFTLDRSSYLVDGYSPNRNEPLTGNS 710

Patent No. 6962980

GENERAL INPORMATION:
APPLICANT: Retter, Marc W.
TITLE OF INVENTION: COMPOSITIONS AND METHODS FOR THE THERAPY AND TITLE OF INVENTION: DIAGNOSIS OF OVARIAN CANCER
FILE REFERENCE: 210121.462C6
CURRENT APPLICATION UNDER: US/09/827,271
CURRENT PILING DATE: 2001-04-04
NUMBER OF SEQ ID NOS: 461
SOFTWARE: FREEERQ for Windows Version 3.0
SEQ ID NO 388

No. is the number of results predicted by chance to have a
score greater than or equal to the score of the result being printed,
and is derived by analysis of the total score distribution.
                                                                                                                                                                                                                                                                                                                   AAQPARRARRIKLFTHRSSV.....QKLISEEDLNMHTGHHHHHH 748
